The person mentioned above has been diagnosed with Obstructive Sleep Apnea. This person has been prescribed and is required to use a Positive Airway Pressure (PAP) device during sleep to keep their airway from collapsing which causes periods of apnea and oxygen desaturation.

Medistrom is the manufacturer of backup power supplies that are compatible with PAP devices. The Medistrom backup power supplies utilize li-ion cells that are contained within the equipment. The backup power supplies are CSA certified and each unit has a capacity of 98Wh or less. All applicable information can be found on the bottom of these units.

If you have any questions or concerns please contact Medistrom at 1-888-407-4791.
